

I am a financial supporter of our Local K-LOVE radio station, 91.1 FM.

As a supporter, I have been listening to the station for years and was relieved to find that it was family friendly. I had been listening to other stations previously, and had to change stations frequently because of the content of the music and the commentary. It was obscene, many times, and not fit for the radio waves.

I found K-LOVE because of several bumper stickers that I saw as I drove around town. For a station that is financially supported by donations, it would be a waste of their funds to have to replace those stickers. For K-LOVE, that is advertising. Or, if an LPFM station were to displace their current programming, God only knows what would replace it. It is important that the Christian community be able to have quality programming to turn to. I am not opposed to secular music, but I feel that it is a crap shoot when listening to those stations, because the DJs use questionable language, play music that has highly volatile lyrics, and are pumping beliefs that my family doesn't agree with into our ears constantly.

I know that many people choose not to listen to Christian music, and I respect their opinion. However, I do choose to, and I choose to support the station with my own money every month. I implore you not to displace my programming, not to negate all of the advertising that has already been done, and not to stand in the way of a clean, family friendly broadcast.
